and Miles Per Gallon by Vehicle Type (TABLE MFC-1)	27

INTRODUCTION

The 1999 Illinois Travel Statistics publication is assembled to provide detailed traffic information to the different users of traffic data. While most users of traffic data at this level of detail are within the Illinois Department of Transportation, this publication is distributed outside the Department. The 1999 Illinois Travel Statistics publication contains information previously included in the Traffic Characteristics on Illinois Highway, which will no longer be published.

The 1999 Illinois Travel Statistics publication is now available as an IDOT electronic pdf document found within the Inside IDOT Intranet.

Annual average daily traffic volumes (AADT) and vehicle miles of travel (VMT) are products of the IDOT's Traffic Count program. Counts from this program range in duration from data continuously recorded at permanent count stations to thousands of coverage count locations that are counted for a 24-hour period during the year.

The mileage and vehicle miles of travel data in the following tables are based on roads/streets located within the Districts geographical boundaries (Administrative District). In this report, the State System consists of state maintained highways including highways marked as Interstate, United States or Illinois routes.

Vehicle miles of travel (VMT) are calculated by multiplying the mileage times the annual average daily traffic (AADT) from the Illinois Highway Information System. VMT data are expressed as either daily vehicle miles of travel (DVMT) or as annual vehicle miles of travel (AVMT).

The term "urban" applies to those miles that are in incorporated or unincorporated places with 5,000 or greater population. Urban areas may include any adjacent areas that have or are developing urban characteristics. The term "rural" consists of those miles located outside an urban area. An urbanized area, consists of an incorporated place and adjacent densely settled area that together have a minimum population of 50,000.

If additional information about this publication is needed, please contact the Office of Planning and Programming at (217) 785-2353.

Interstate (Urban) Traffic Patterns

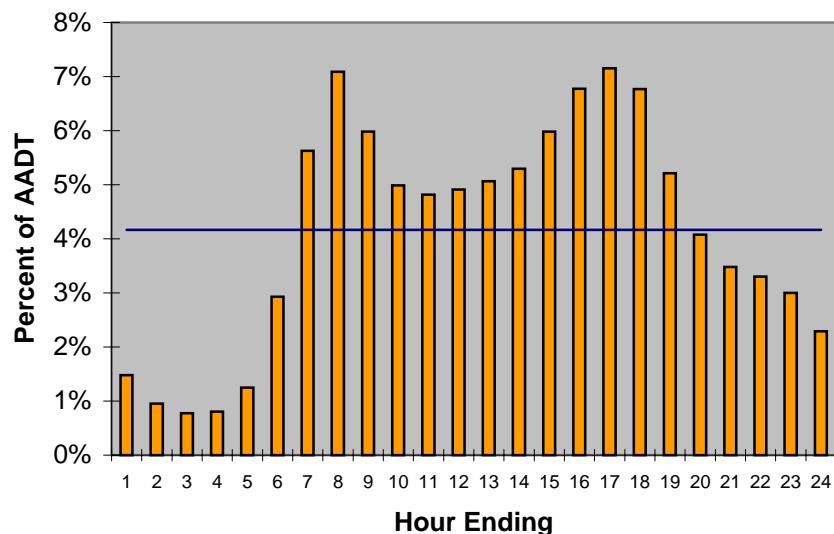

Traffic by Month

Traffic by Day

Traffic by Hour (mon-thurs only)

AADT - Annual Average Daily Traffic

Data from 5 continuous count sites throughout Illinois during 1996-1999 were used to determine these travel patterns.

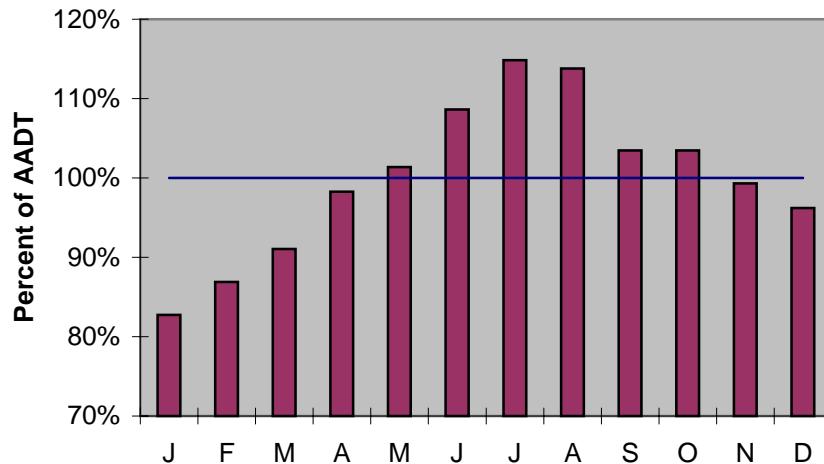

The horizontal line represents the annual average daily traffic for each chart.

Any bar above the blue line represents higher than average traffic for that period.

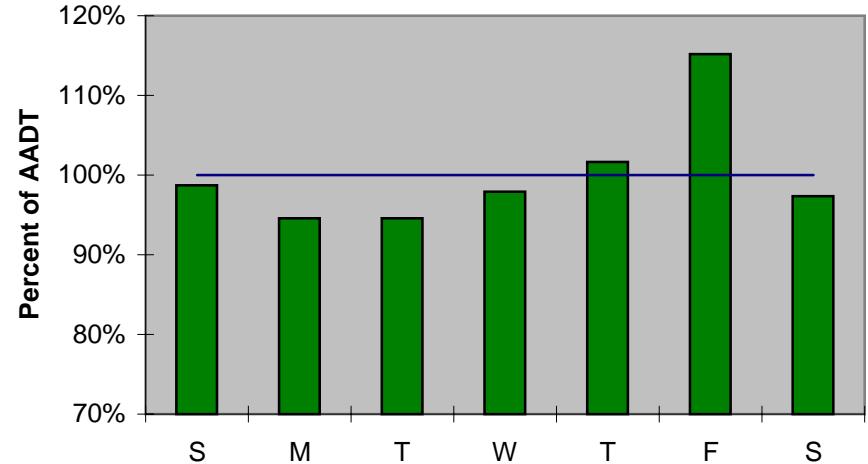

The bars on the hourly chart represent the percent of the average daily traffic for that hour. Only mondays through thursdays are used.

Interstate (Rural) Traffic Patterns

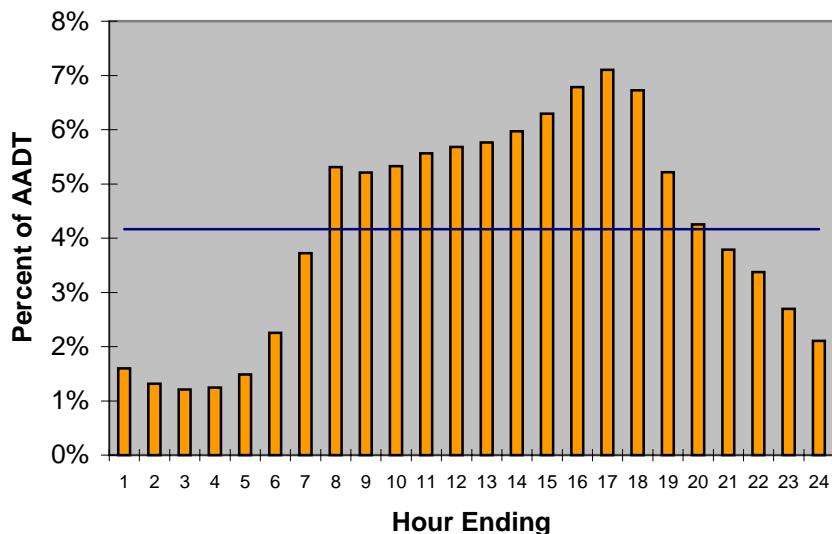

Traffic by Month

Traffic by Day

Traffic by Hour (mon-thurs only)

AADT - Annual Average Daily Traffic

Data from 12 continuous count sites throughout Illinois during 1996-1999 were used to determine these travel patterns.

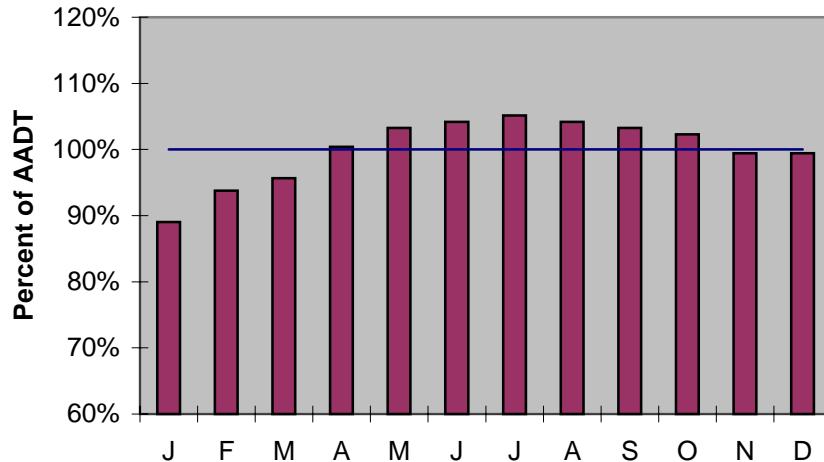

The horizontal line represents the annual average daily traffic for each chart.

Any bar above the blue line represents higher than average traffic for that period.

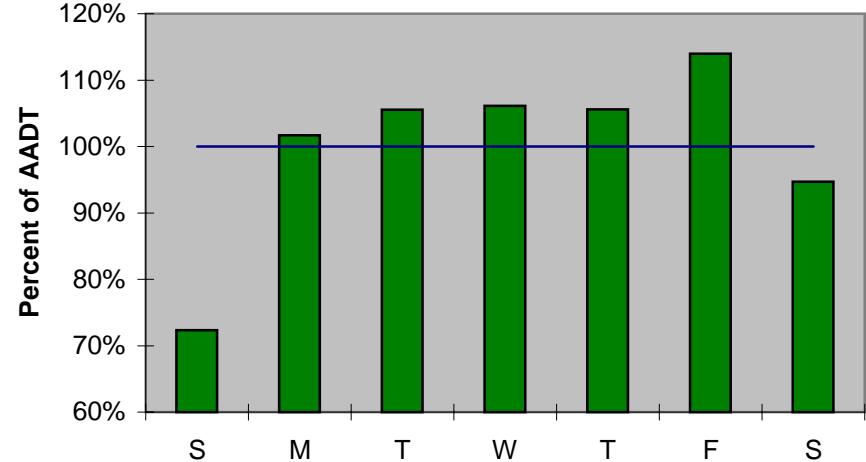

The bars on the hourly chart represent the percent of the average daily traffic for that hour. Only mondays through thursdays are used.

Non-Interstate (Urban) Traffic Patterns

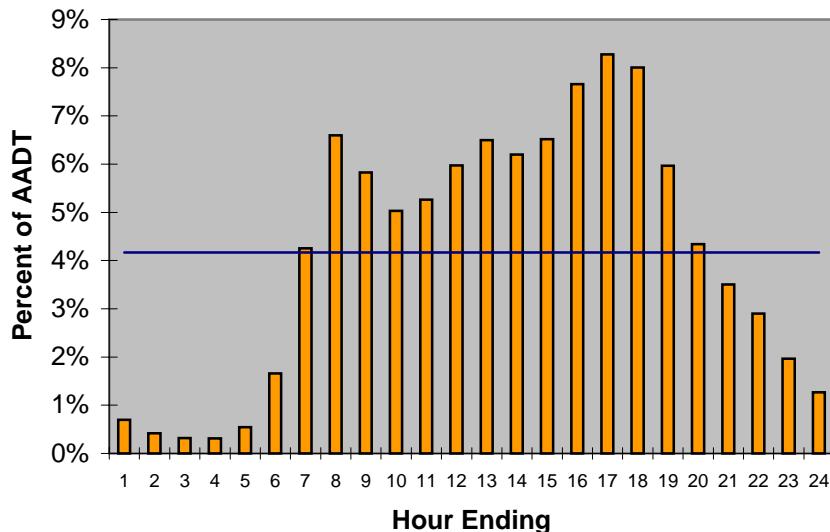

Traffic by Month

Traffic by Day

Traffic by Hour (mon-thurs only)

AADT - Annual Average Daily Traffic

Data from 21 continuous count sites throughout Illinois during 1996-1999 were used to determine these travel patterns.

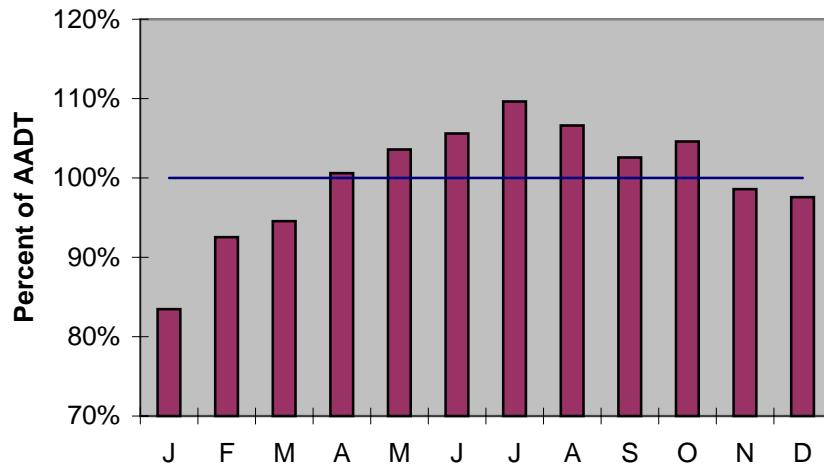

The horizontal line represents the annual average daily traffic for each chart.

Any bar above the blue line represents higher than average traffic for that period.

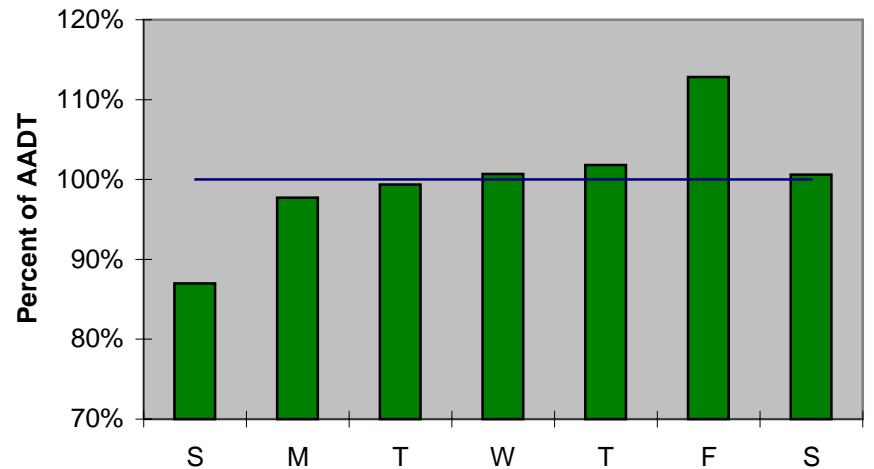

The bars on the hourly chart represent the percent of the average daily traffic for that hour. Only mondays through thursdays are used.

Non-Interstate (Rural) Traffic Patterns

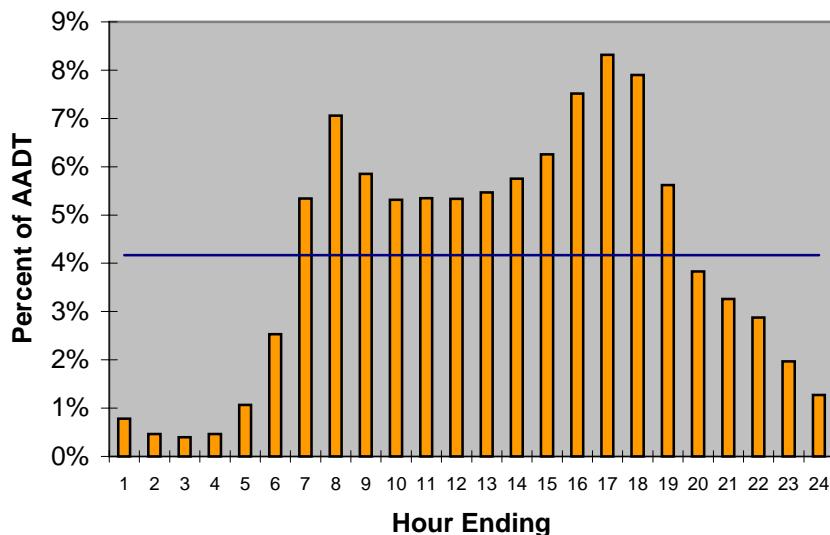

Traffic by Month

Traffic by Day

Traffic by Hour (mon-thurs only)

AADT - Annual Average Daily Traffic

Data from 8 continuous count sites throughout Illinois during 1996-1999 were used to determine these travel patterns.

The horizontal line represents the annual average daily traffic for each chart.

Any bar above the blue line represents higher than average traffic for that period.

The bars on the hourly chart represent the percent of the average daily traffic for that hour. Only mondays through thursdays are used.
