3:00 PM—5:00 PM

Monitoring for North American Cross Border Traffic

Chair: Frank Southworth

Bruce Lambert—The US DOT's
Freight Analysis Framework

John McCray—Cross-Border US-
Mexico Traffic

Rick Donnelly—Data on Truck Flows
Across the US-Canada Border

The session will identify the types of traffic count data being collected at border crossings and provides examples of how this data is being used in specific freight operations and planning studies.
