November 7, 2012

Ms. Amy Jackson-Grove  
 Division Administrator  
 Federal Highway Administration  
 628-2 Hebron Avenue, Suite 303  
 Glastonbury, CT 06033

Dear Ms. Jackson-Grove:

Subject: SPR-PL-1(50), State Study No. SPR-2276  
 Distribution of Final Report

As outlined in the direct distribution procedure for SP&R Part II research reports, enclosed are seven copies of Report No. CT-2276-F-12-6, "Benchmarking Connecticut's Transportation Infrastructure Capital Program with Other States." These copies are provided for all distribution requirements within the USDOT, including the FHWA, Office of Technology Applications, HTA-22.

To avoid duplication and oversight in distribution, below is a listing of organizations which were sent copies of the report. Please advise me if there is an omitted organization or if the number of copies is incorrect.

Direct Distribution of SP&R Research Report No. CT-2276-F-12-6

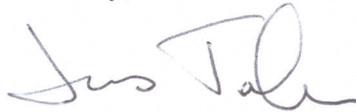

| <u>ORGANIZATION</u>  | <u>NUMBER OF COPIES</u> |
|--|-------------------------|
| Northwestern University<br>TRISNET Repository  | PDF                     |
| Transportation Research Board<br>Library, GR314  | PDF                     |
| National Technical Information Service (NTIS)  | URL Link                |
| U.S. Department of Transportation<br>National Transportation Library, K-50                                     | PDF                     |
| Federal Highway Administration Research Library  | 2 + PDF                 |
| Office of Corporate Research, Technology, and Innovation Management<br>Turner-Fairbank Highway Research Center | PDF                     |

This study was conducted to benchmark Connecticut's performance in capital programming against other state DOTs, identify ways to improve the performance and efficiency of the capital programming process and create a tool, a "Transportation Investment Dashboard," to communicate the performance of Connecticut's capital program to the state's transportation leadership.

The report is available online at:
