

Index

A

Accident investigation sites 2-151
Administration 1-49, 3-13, 3-26
 Coordination 149, 3-13, 3-26
 Internal agency perspectives. 1-49, 3-14
Administrative traffic management teams 2-93, 2-131, 2-185
Advanced traveler information systems 2-209
Advanced Vehicle Control 2-9
Advanced vehicle control 2-87, 2-165
Air bag systems 2-161
Aircraft patrols 2-39
Alternative route planning 2-89, 2-137, 2-173
Armbands 2-123
Automated debris recovery system 2-159
Automated truck warning systems 2-11
Automatic cargo identification 2-143
Automatic vehicle identification 2-47
Automatic vehicle location 2-97
Available resources 1-42, 3-7, 3-21
 Equipment, staffing and funding 142, 3-8, 3-22
 Resource sharing agreements 1-43, 3-8, 3-22

B

Benefits, incident management 3-29

C

Call boxes 2-27
Cargo identification, automatic 2-143
Cellular telephone monitoring 2-49
Cellular telephones 2-31
Citizens' band (CB) radio 2-33
Closed-circuit television 2-45
Collision investigation equipment 2-189
Command posts 2-121
Communications
 Cellular telephones 2-31
 Citizens' band (CB) radio 2-33
 Interagency radio 2-81, 2-119
Control center 2-53, 2-101, 2-133, 2-205

D

Database, incident response 2-67, 2-141
Debris recovery system, automated 2-159
Dedicated freeway/service patrols 2-23, 2-73, 2-153
Design, incident management system 3-1

E

Education programs, public 2-95, 2-187
Electronic loop detection 243
Electronic total stations 2-189
Emergency vehicle access 2-85, 2-171
Equipment and materials resource list 2-65
Equipment storage sites 2-91
Evaluation issues
 Administration 149, 3-13, 3-26
 Coordination 149, 3-13, 3-26
 Internal agency perspectives 149, 3-14
Available resources 1-42, 3-7, 3-21
 Equipment, staffing and funding 142, 3-8, 3-22
 Resource sharing agreements 143, 3-8, 3-22
Geographic constraints 140, 3-6, 3-20
Issues of 140
 Scope of the area 141
Jurisdiction 1-32, 3-2, 3-16
 Agency perspectives and responsibilities 1-34, 3-2, 3-16
 Coordination among agencies 1-36, 3-3, 3-18
 Forming consensus 1-38, 3-5, 3-19
 Interagency field communications 1-35, 3-3, 3-17
 Legal ramifications 1-37, 34, 3-18
 Political sensitivity 1-39, 3-6, 3-19
 Site management 1-32, 3-3
Operational procedures 1-44, 3-9, 3-23
 Communication among agencies 1-45
 Communication in the field 1-45, 3-10, 3-24
 Legal ramifications 1-46, 3-10, 3-25
Training issues 1-48, 3-12, 3-25
 Resource guide 1-48
 Topics 1-48

Evaluation, quantifying benefits 3-29
 Incident duration 3-29
 Traffic impacts 3-35
Externally-linked route guidance 2-203

F

Fire hydrants, location of 2-175
Flashing lights policy 2-129
Freeway patrol 2-23, 2-73, 2-153

G

Geographic constraints 1-40, 3-6, 3-20
 Issues of 1-40
 Scope of the area 1-41
Geographic information systems 2-99

H

Hazardous materials manual 83-1
Highway advisory radio (HAR) 2-197

I

Identification armbands 2-123
Incident clearance 1-10, 2-145
 Accident investigation sites 2-151
 Administrative traffic management teams 2-185
 Advanced vehicle control 2-165
 Air bag systems 2-161
 Alternative route planning 2-173
 Automated debris recovery system 2-159
 Dedicated freeway/service patrols 2-153
 Electronic total stations 2-189
 Emergency vehicle access 2-171
 Fire hydrants, location of 2-175
 Hazardous materials manual 2-183
 Incident response manual 2-181
 Incident response teams 2-177
 Personnel training programs 2-179
 Public education programs 2-187
 Push bumpers 2-157
 Responsive traffic control 2-163
 Shoulder travel ordinance 2-169
 Variable lane closure 2-167
 Vehicleremoval 2-149
Incident detection and verification 1-4, 2-15
 Aircraft patrols 2-39
 Automatic vehicle identification 2-47
 Cellular telephone monitoring 2-49
 Cellular telephones 2-31
 Citizens' band (CB) radio 2-33
 Dedicated freeway/service patrols 2-23
 Electronic loop detection 2-43
 Incident phone lines 2-29

 Motorist aid call boxes 2-27
 Peak period motorcycle patrols 2-19
 Response and control center 2-53
 Transit authority assistance 2-37
 Video imaging 2-51
 Video monitoring 2-45
 Volunteer watch 2-35
Incident management
 Definition of 1-1
 Five tasks of 1-4
Incident phone lines 2-29
Incident response 1-5, 2-57
 Administrative traffic management teams 2-93
 Advanced vehicle control 2-87
 Alternative route planning 2-89
 Automatic vehicle location 2-97
 Database 2-67
 Dedicated freeway/service patrols 2-73
 Emergency vehicle access 2-85
 Equipment and materials resource list 2-65
 Equipment storage sites 2-91
 Geographic information systems 2-99
 Interagency radio communication 2-81
 Milepost markers, spacing of 2-105
 Peak period motorcycle patrols 2-69
 Personnel resource list 2-63
 Personnel training programs 2-77
 Public education programs 2-95
 Response and control center 2-101
 Shoulder travel ordinances 2-83
 Tow truck contracts 2-79
Incident response database 2-67, 2-141
Incident response manual 2-139, 2-181
Incident response teams 2-111, 2-177
Incident site management 1-7, 2-107
 Administrative traffic management teams 2-131
 Alternative route planning 2-137
 Automatic cargo identification 2-143
 Command posts 2-121
 Flashing lights policy 2-129
 Identification armbands 2-123
 Incident response database 2-141
 Incident response manual 2-139
 Incident response teams 2-111
 Interagency radio communication 2-119
 Parking, response vehicles 2-127
 Peak period motorcycle patrols 2-115
 Personnel training programs 2-113
 Response and control center 2-133
 Traffic control techniques 2-125
Interagency radio communication 2-81, 2-119
Investigation sites 2-151

J

- Jurisdiction 1-32, 3-2, 3-16
 - Agency perspectives and responsibilities 1-34, 3-2, 3-16
 - Coordination among agencies 1-36, 3-3, 3-18
 - Forming consensus 1-38, 3-5, 3-19
 - Interagency field communications 1-35, 3-3, 3-17
 - Legal ramifications 1-37, 3-4, 3-18
 - Political sensitivity 1-39, 3-6, 3-19
 - Site management 1-32, 3-3

L

- Lane closure, variable 2-167
- Loop detectors 2-43

M

- Manual, hazardous materials 2-183
- Manual, incident response 2-139, 2-181
- Media, relationship with 2-195
- Milepost markers, spacing 2-105
- Motorcycle patrols 2-19, 2-69, 2-115
- Motorist aid phones 2-27
- Motorist information 1-11, 2-191
 - Advanced traveler information systems 2-209
 - Externally-linked route guidance 2-203
 - Highway advisory radio (HAR) 2-197
 - Media, relationship with 2-195
 - Radio data systems 2-201
 - Response and control center 2-205
 - Variable message signs (VMS) 2-199

O

- Operational procedures 1-44, 3-9, 3-23
 - Communications among agencies 1-45
 - Communications in the field 1-45, 3-10, 3-24
 - Legal ramifications 1-46, 3-10, 3-25

P

- Parking, response vehicles 2-127
- Peak period motorcycle patrols 2-19, 2-69, 2-115
- Personnel resource list 2-63
- Personnel training programs 2-77, 2-113, 2-179
- Prevention 1-3, 2-7
 - Advanced vehicle control 2-9
 - Automated truck warning systems 2-11
- Public education programs 2-95, 2-187
- Push bumpers 2-157

Q

- Quantifying benefits 3-29

R

- Radio communication, interagency 2-81, 2-119
- Radio data systems 2-201
- Recovery cushions 2-161
- Removal crane contracts 2-79
- Resource list 2-63, 2-65
- Response and control center 2-53, 2-101, 2-133, 2-205
- Responsive traffic control 2-163
- Route guidance, externally-linked 2-203
- Route planning 2-89, 2-137, 2-173

S

- Service patrols 2-23, 2-73, 2-153
- Shoulder travel ordinances 2-83, 2-169
- Spacing, milepost markers 2-105
- Steps for designing a system
 - Defining the problem 1-18
 - Collecting information 1-18
 - Incident size and severity 1-18
 - Developing alternatives 1-21
 - Impacts on motorists 1-21
 - Evaluating alternatives 1-23
 - Evaluation criteria 1-23
 - Impacts on motorists 1-23
 - Goals and objectives 1-19
